

CRUDE GLYCERINE 80% MIN NGM

General Information

Origin	Indonesia
HS Code	1520.00.00
Cas No.	56-81-5
Appearance	Light yellow to dark brown, viscous liquid

Application

Chemical Industry	Crude glycerine can be further processed into a pure form, creating refined glycerine. It is also used to manufacture epichlorohydrin, which is used to manufacture epoxy resin. Crude glycerin can also be used to manufacture 1,3-propanediol.nature.
Oil Industry	It is used to manufacture polyols, which is used as a raw material for the production of polyurethane. Polyurethanes are used to manufacture flexible and rigid foams.
Feed Industry	It is used in the production of animal and poultry feed as a source of carbohydrates. It also has a high absorption rate in animals and rich in energy. Once absorbed by animals, it is converted to glucose by the enzyme glycerol kinase for energy production in the liver of animals.

Specification

Inspection Item	Standard
Glycerol Content, %	78.00-85.00
Alkalinity, mmol/100 g	≤ 20.00
Saponification Equivalent, mmol/100 g	≤ 5.00
Moisture, %	≤ 10.00

Packaging

20 MT / Flexi Bag
